Sec. 103. The Common Council shall have power, and is hereby authorized, whenever it may deem it expedient to establish or alter the grades, and to improve any street or alley or parts thereof, now or hereafter laid out or established within the corporate limits of the City; to determine the character, kind and extent of such improvement; to levy and collect assessments upon all lots and parts of lots and parcels of land specially benefited, directly or indirectly, by such improvements for the purpose of defraying the whole or any part of the cost and expense thereof, and to determine what lands are especially benefited by such improvement and the amount to which each parcel or tract of land is benefited.

Sec. 104. Whenever the Common Council shall deem it expedient or necessary to improve any street or any part thereof, it shall procure plans and specifications for an appropriate improvement and the estimates of the work to be done and the probable cost thereof; and such plans, specifications and estimates shall be filed in the office of the Recorder. If the Council finds such plans, specifications and estimates satisfactory, it shall approve the same, or may amend or change the same as it may deem fit. The Council shall thereupon, by resolution, declare its intention of making said improvements, describing the same and including the surveyor's or engineer's estimate of the probable cost thereof. The said resolution must specify with convenient certainty the street or part thereof proposed to be improved or of which the grade is proposed to be established, or altered, and the kind of improvement proposed to be made. The action of the Council in declaring its intention to improve a street, directing publication of notice thereof, providing and adopting the plans, specifications and estimates of the surveyor or engineer, may all be done in one and the same act.

Sec. 105. The resolution of the Council, declaring its purpose to improve any street, as provided in the foregoing section, shall be kept of record in the office of the Recorder, and shall be published in two consecutive issues of some newspaper published in the City of St. Helens, or posted in three public places within said City for twenty days.

Sec. 106. Within twenty days from the date of the first publication or posting of the notice required to be published or posted, in the preceding section, the owners of two-thirds or more in front footage of the property, which may be subject to assessment for such improvement may make and file with the Recorder a written remonstrance against the proposed improvement, grade or alteration thereof, and thereupon the same shall not be then further proceeded with, and any improvement so defeated by a remonstrance shall not be again proposed for six months except upon a petition of the owners of one-half or more of the front footage of the real property affected thereby.

Sec. 107. If no such objection or remonstrance is made and filed with the Recorder within the time designated, or if any remonstrance so filed with the Recorder within the time designated is not signed by the legal owners of two-thirds of the front footage of the property affected as hereinbefore provided, the Council shall be deemed to have acquired jurisdiction over said street to improve the same, and the Council may thereafter and within six months from the date of the final publication of such notice provide by ordinance for making said improvement, which shall conform in all essential matters with the plans and specifications previously adopted. In case of a notice to establish a grade or alteration thereof, the Council within six months from the final publication of said notice may establish the same by ordinance, as proposed in said notice.

Sec. 108. Upon the taking effect of the ordinance as provided in Section 107, the Recorder shall, as soon as practicable, give notice by publication in not less than two issues of some newspaper published in the City of St. Helens, or in not less than two issues of some daily newspaper of general circulation in Portland, Oregon, inviting proposals for making said improvement. The Council shall have the power to reject any and all bids and to award the contract for said improvement, and to impose such conditions upon the bidders, with regard to bonds and securities and guarantees, of the good faith and responsibility of the bidders, as to insure the faithful completion of the work in strict accordance with the specifications thereof; and to make all rules and regulations concerning the same that may be considered advantageous to the City, such contract to be let to the lowest and best responsible bidder for either the whole of said improvement or for such part thereof as will not materially conflict with the completion of the remaining portion. The Council shall have power to fix the time in which every such improvement shall be completed, and it may extend such time, should the circumstances warrant. The Council may also provide for the proper inspection and supervision of all work done under the provisions of this chapter.

Sec. 109. Whenever any street improvement is completed in whole or in part to the satisfaction of the Surveyor or any other person or persons appointed by the Council to oversee and superintend such work, he or they shall file with the Recorder a certificate of such completion and his or their approval of such work so completed. The Recorder shall thereupon post a notice of such completion in three public places in the City for a period of five days, or publish same in one issue of some newspaper published in the City of St. Helens, stating therein that a certificate of the completion of said work has been filed, and stating when the acceptance thereof will be considered by the Council. Thereafter and at any time prior to the date specified in said notice for the hearing of the same, any owner of any interest in, or the agent of any property to be affected by the assessment for the payment of said improvement, may file his objections, if any, to the acceptance of said work, and such objections shall be considered and the merits thereof determined by the Council, and the decision of the Council thereon shall be conclusive.

Sec. 110. Whenever any street improvement, or the construction, reconstruction or repair of any sewer, any portion of the cost of which is to be assessed upon the property benefited thereby, is completed in whole or in such part that the cost of the whole can be determined, the surveyor or engineer shall certify to the Recorder the accuracy of the original estimate of the work to be done, or if, in the progress of the work, it has been found necessary to make any alterations in said estimated work, for any cause whatever, said surveyor or engineer shall file a corrected estimate in detail of such work. The Council shall thereupon apportion the cost thereof upon the lots, parts of lots and parcels of land adjudged by the Council to be directly or indirectly benefited thereby. When the Council has ascertained what it may deem a just apportionment of said costs in accordance with the benefit, directly or indirectly, derived by each lot and part of lot or parcel of land within the improvement district adjudged to be so benefited, the same shall be a proposed assessment, and the Recorder shall give notice of the same by posting notice thereof in three public places in said City for a period of fifteen days, or by publication in two consecutive issues of some newspaper published in St. Helens, Oregon, which notice shall specify the whole cost of such improvement, the share so apportioned to each lot or part of lot or parcel of land, with the name of the owners thereof, if known to the Recorder, and stating that any objections to such apportionment that may be made in writing to the Council and filed with the Recorder within fifteen days from the date of posting such notice, will be heard and determined by the Council before the passage of any ordinance assessing the cost of said improvement, and further stating the time at which said matter will come up for hearing before the Council. It shall also be the duty of the Recorder forthwith to send by mail, postpaid, to the owner, if known, of each lot or part thereof, or parcel of land, or to the agent of such owner, directed to the postoffice address of such owner (directed to the postoffice address of such owner or agent), if known, and if such postoffice address be unknown to him, then directed to such owner or agent at St. Helens, Oregon, a notice of the amount so apportioned to each lot or part thereof, or parcel of land owned by such person, stating the time within which objections to such apportionment may be made in writing to the Council, and filed with the Recorder, and also stating when said matter will come up for hearing before the Council.

Sec. 111. At the time specified in said notice, or at such subsequent time as the Council may fix, the Council shall consider said proposed assessments and all objections made thereto, and shall have power at its discretion and without any further notice to consider, ascertain and determine the amount to which each lot or part of lot or parcel of land so assessed is benefited by reason of said improvement, or construction, reconstruction or repair of said sewer, and if the amount apportioned by the Council to any lot or part thereof, or parcel of land shall not be in just proportion to such benefits, the assessment against such lot or part thereof or parcel of land shall be reduced or increased by the Council that it shall be in just proportion to such benefit as determined by the Council. The Council shall then declare said assessment by ordinance, and direct the Recorder to enter a statement thereof in the "Docket of City Liens," as provided in this Charter.

Sec. 112. Each lot or parcel thereof or parcel of land shall be deemed to be benefited by the sewer construction, reconstruction or repair, or street improvement, as the case may be, to the full amount of the assessment levied thereon.
